

# Company Fundraising by JustGiving

Showcase employees' charity support, inspire teamwork and track your campaigns – all on JustGiving.

## How it works

- 1 We create your company profile on JustGiving.
- 2 Your employees' individual and team fundraising pages are linked to your profile.
- 3 You get simple reports that help you track fundraising success and boost employee donations with matched giving.

## With Company Fundraising you can:

### Create a community

where employees are recognised for their fundraising efforts, and know that they're part of something bigger. Use teams and leaderboards to encourage collaboration and a bit of friendly competition.

### Track your fundraising success

with online report snapshots, and download the full data for further analysis. These simple reports give you all the information you need to lighten the load of your matched giving admin.

## About JustGiving

JustGiving is the UK's largest online fundraising platform and has helped 13 million people raise more than £800 million for over 12,000 charities since 2001. With 10 years' experience, we can help you beat your fundraising targets.
